A UNIQUE GLOBAL INQUIRY INTO WEALTH AND WELLBEING

<http://www.prosperity.com/>

The Legatum Prosperity Index is an annual ranking of 142 countries, developed by the Legatum Institute. The Legatum Institute is a privately funded think-tank founded in 2007 and located in London. Oxford Analytica is Legatum's research partner for the Prosperity Index and contributed the methodology.

Source data includes Gallup World Poll, WTO, World Development Indicators, GDP, World Intellectual Property Organization, UN Human Development Report, World Bank, OECD, World Values Survey.

The ranking is based on wealth and a wide variety of other factors. The 89 variables are grouped into 8 sub-indexes which are averaged using equal weights.

The 8 sub-indexes are: Economy, Entrepreneurship & Opportunity, Governance, Education, Health, Safety & Security, Personal Freedom and Social Capital.

The Prosperity Index is reviewed and critiqued (although not necessarily endorsed in toto) by an advisory panel of academics and scholars,

Including outstanding academics like Dr. Stephen Krasner (Stanford University) and Dr. Robert Putnam (Harvard University).
